## COURSE OVERVIEW

The Institute of Bankers Pakistan, in collaboration with JCR-VIS Credit Rating Company Limited, has been offering a series of specialized training seminars to build knowledge-based capacity and to improve skill-set of professionals from financial services industry/corporate sector. The seminar on Infrastructure Project Financing is one of these trainings.

Infrastructure is the backbone for economic growth and development in a country. Financing of such projects has evolved through the centuries; it is primarily a vehicle for assembling a consortium of investors, lenders and other stakeholders to undertake industrial and infrastructure projects that would be too large for individual investors to underwrite. Infrastructure project financing tends to capitalize large-scale projects that require a great deal of debt and equity capital, from hundreds of millions to billions of dollars.

# INFRASTRUCTURE PROJECT FINANCING

The Institute  
of Bankers  
Pakistan

## LEARNING OBJECTIVES

This two-day program would enable the participants to understand the dynamics of Infrastructure Projects and the associated pattern of financing. The program will also enhance their understanding of the SBP's regulations for Infrastructure Project Financing, thereby facilitating them in complying with the regulatory requirements. It will facilitate the participants in identifying the right customers and align their financing strategy accordingly; it would ultimately help them to play an active role in the ongoing series of CPEC and non-CPEC projects, by creating an environment that would bring in larger business benefits for their organizations.

## COURSE CONTENTS

- Similarities Between IPF and Project Finance (Green and Brown Field)
- Evaluation of an IPF Project (SPV Versus Non-SPV Projects)
- How to Understand the Financial Model (Sensitivity Analysis & Other Tools, NPV, IRR, Payback Methods etc.)
- Understanding Various Parties involved in the IPF Project
- Understanding Various Project Contracts and their Implications
- Interlinking the Links from Project Concept Inception to Commercial Operations
- Real Examples of Successful and Unsuccessful IPF Projects
- Detailed Comprehension of IPF Prudential Regulations
- How to Create an IPF Credit Proposal of International Standard (Creating the Due Diligence)?
- Capital Implications of IPF Projects for Banks in Light of Basel III and the Role of Rating Agencies

## WHO SHOULD ATTEND?

- Investment Banking and Corporate Banking Heads, Team Leaders, Relationship Managers
- Senior Bankers & Policy makers
- Chief Risk Officers, Credit Risk Heads, Unit Heads, Analysts
- Fund Managers
- Private equity and venture capital firms
